The process is more important than the results. And if you take care of the process, you will get the results.

EDUCATION

Master Of Computer Applications

Jain College OF Engineering Belagavi

02/2022 - 10/2023

Aggregate of marks : 7.6

Bachelor Of Computer Applications

Basaveshwar Science College,Bagalkot

06/2018 - 09/2021

63.5

12th Boards | PCMB

Aryabhatta PU College, Dharwad

02/2017 - 03/2018

51.5

10th | CBSE Boards

Bhuvana Jyothi Residential School Shirthady Mangalore KK.

04/2015 - 04/2016

CGPA : 7.6

INTERNSHIP/COURSES

Python Full stack development - SoftMusk Info Private Limited

Belagavi

11/2022 - 12/2022

Belagavi

SoftMusk Info Private Limited Belagavi

Achievements/Tasks

- Project on Securing IOT data using Blockchain, Learning The Technologies that are used for development of the project using Python and Django Framework and MySQL.

Software Development Intern - KodNest Technologies

Bangalore

06/2023 - 02/2024

Bangalore

KodNest Technologies, Bangalore

Achievements/Tasks

- Intern at KodNest, where I acquired practical skills in Java, MySQL, Frontend and Backend Technology, Manual Testing, contributing to real-world projects and learning directly from industry professionals.

PROJECTS

Todo Application

A full-stack Java application utilizing Spring Boot for the backend, React for the frontend, and establishing communication between them through REST APIs. Integrate JPA and Hibernate to enable seamless interaction between the Spring Boot application and the database. Technologies used - SpringBoot, ReactJs, JPA and Hibernate, Bootstrap, MySQL.

TuneHub Application

Tune Hub is a music application that utilizes Spring Boot and Hibernate for its backend infrastructure. Its frontend, developed with React.js, interacts seamlessly with the backend through RESTful APIs and the database. Technologies used - SpringBoot, ReactJs, JPA and Hibernate, MySQL.

Internship Project: Securing IOT data using Blockchain(Web development Project)

Blockchain has emerged as the possible solution for creating more secure IoT systems in the time to come to come. Then we have discussed the infrastructure of IoT which is based on Blockchain network and at last a model has been provided for the security of internet of things using blockchain. - Python, Django, MySQL, Wamp Server 2.4.
